# Veraswap Airdrop Implementation Plan

---

Nodeberry Pvt Ltd.,  
20th April, 2021

We will provide VRAP airdrop tokens to the users who completes the following two tasks .

1. Retweet our tweet on twitter
2. Join our official channel on Telegram.

Inorder to participate in our airdrop, users should signup at our contest web application where the event related information will be posted.

### **The Signup process :**

- User enters his/her email and password to create an account at our platform.
- A verification link will be sent to the user's email.
- Once the email is verified, the user can login.
- On the first login, the user will be asked to enter the wallet address to which the tokens must be sent if he won the tokens in airdrop.
- After the wallet address is provided, he is all set to participate and win the contest!

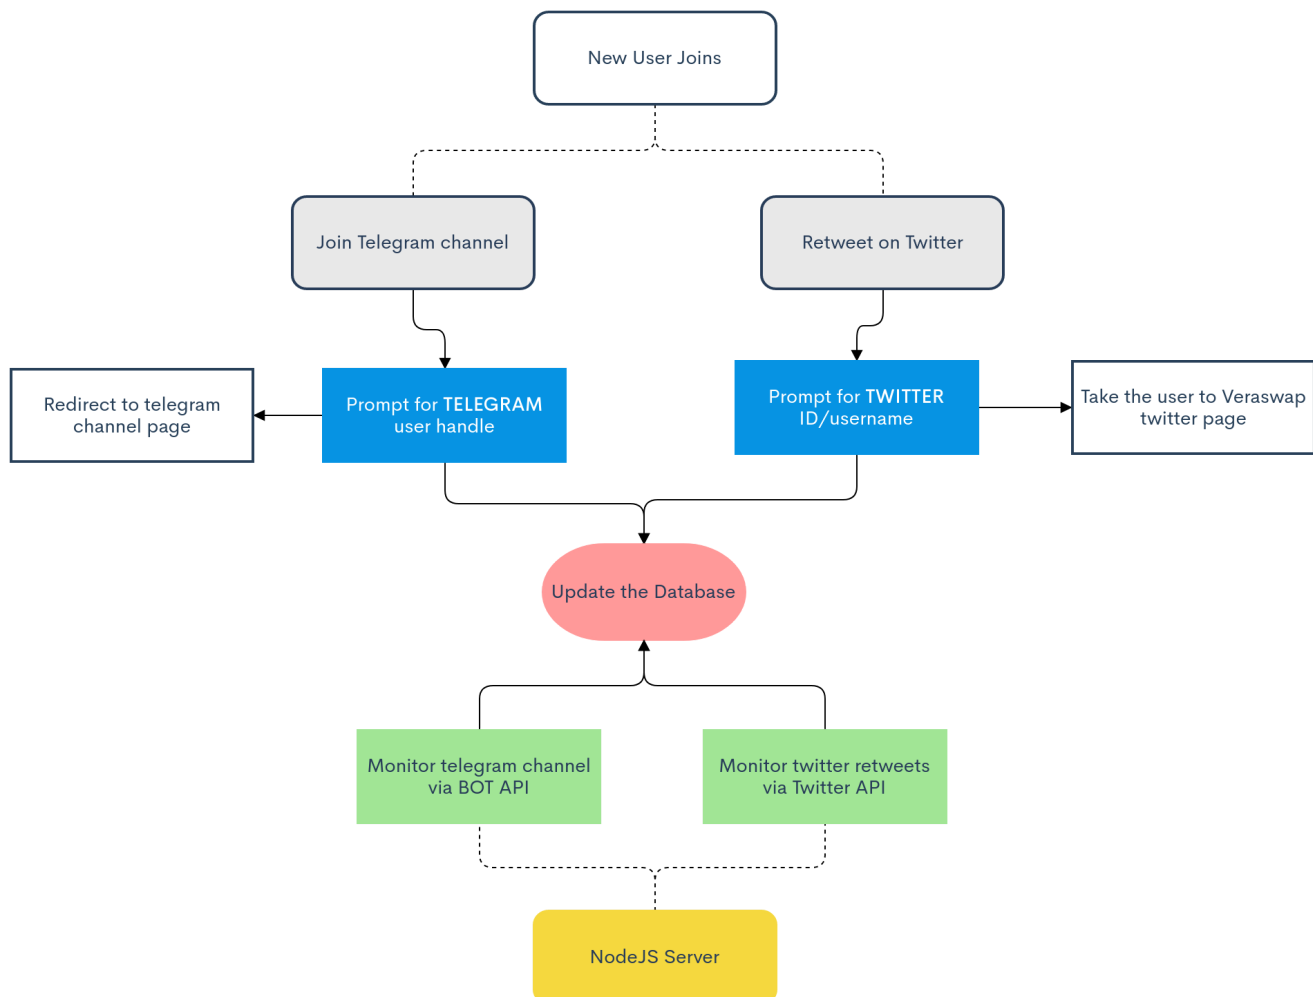

### **Twitter ReTweets:**

- Users need to retweet our post on Twitter.
- To start with, the user must click on the “Retweet on twitter” button that is present in our web application.
- The user will be asked to enter the twitter username. Once the user gives the twitter id, he/she will be redirected to our twitter page, where he can retweet.
- We will be constantly updating the list of retweeters from the backend using the Twitter API.

## Joining telegram channel :

- When the user clicks on the “Join telegram channel” button displayed on the dashboard, we will prompt the user to enter his/her telegram handle.
- Once the user enters the telegram handle, we will redirect him/her to our telegram channel page.
- We will constantly monitor the newly joined users in our telegram channel via Telegram BOT API and update the list in our database.

---
